Sexual Assault Awareness Month

Sexual assault is any unwanted sex or sexual contact performed by one person against another without their consent. A person does not consent if they are intoxicated, asleep, or unable to give consent. Sexual assault can be physical, emotional, or psychological. It can happen to anyone, at any time, and in any place. Sexual assault is a crime and it is illegal. If you are a victim of sexual assault, you should report it to the police. If you are a survivor of sexual assault, you should seek support from a counsellor. Sexual assault is preventable. We can all do something to prevent sexual assault. We can all do something to support survivors of sexual assault. Sexual assault is a community issue. We can all do something to prevent sexual assault. We can all do something to support survivors of sexual assault.
